SAKTHIKUMAR R

SENIOR SOFTWARE ENGINEER

PROFILE SUMMARY

Senior Software Engineer with 9 years of experience in full-stack development using .NET Core, ASP.NET, React and Angular. Experienced in designing scalable enterprise applications, microservices and REST APIs, with strong expertise in SQL Server, PostgreSQL and cloud services (Azure, AWS, GCP). Proven track record in manufacturing, logistics and MIS automation projects, delivering CI/CD-enabled solutions, performance optimizations and integrated AI/back-end services for mobile and web platforms.

WORK EXPERIENCE

2025 - 2026

● Senior Software Engineer

Mahaveer Finance India Ltd

- Design and develop enterprise web applications using .NET Core and React.
- Collaborate with team members to implement REST APIs and microservices.
- Maintain application performance and reliability through code reviews and optimizations.
- Contributed to MIS Automation regional project by implementing dashboard components and automation workflows.

2020 - 2025

● Software Engineer

Saint Gobain Glass India

- Developed MES/LES and manufacturing solutions using ASP.NET

SQL
Server

Postgresql

Entity Framework

LINQ

REST APIs

Docker

Kubernetes

Azure

AWS

Microservices

Azure DevOps

GCP
Cloud

Firebase

LANGUAGE

English

Tamil

ACHIEVEMENTS

Product

Built and launched ChessWhat.com, a cross-platform chess learning application using React, Ionic and Python backend.

HOBBIES

Chess

EXTRA CURRICULAR ACTIVITIES

Chess App Development

Core, .NET Core Web APIs and React/Angular frontends.

- Implemented database designs and high-volume transaction stored procedures in PostgreSQL and SQL Server.
- Built and maintained CI/CD pipelines with GitLab and integrated SonarQube for code quality.
- **Delivered LaMa and rConnect projects to streamline manufacturing and order management processes.**

2017 - 2020

Application Developer Vega Intellisoft Pvt Ltd

- Worked as an Application Developer on Saint-Gobain engagements, developing ASP.NET MVC and ADO.NET based applications.
- Designed SQL Server databases, wrote stored procedures and implemented core modules for inventory and warehouse management.

PROJECTS

MIS Automation (Regional Project)

7 Months

- Designed and developed an MIS dashboard using React and ASP.NET and implemented n8n workflows for automated report generation.
- Integrated multiple data sources, optimized SQL queries and managed scheduling, validation and error handling for MIS processes.
- **Automated end-to-end MIS reporting to improve operational efficiency.**

rConnect — Customer Order Management System

36 Months

- Implemented customer registration, order creation modules and business workflows using React and ASP.NET Core with PostgreSQL backend.
- Designed normalized databases and wrote stored procedures for high-volume transactions.

Designed and developed ChessWhat.com, a mobile app to teach and train chess players through puzzles, openings and endgame modules.

SOCIAL LINKS

<https://www.linkedin.com/in/sakthikumarchess/>

LaMa (Logistics and Manufacturing Architecture)

36 Months

- Developed RESTful APIs using .NET Core and maintained CI/CD pipelines; integrated SonarQube and Elasticsearch for code quality and search capabilities.
- Contributed to streamlining manufacturing and logistics operations for automotive client Sekurit.

Orion LITE / Orion

24 Months

- Built warehouse and inventory management modules using ASP.NET MVC and ADO.NET with SQL Server.
- Implemented core functionalities for stock tracking, dispatch and optimized SQL stored procedures.
